FOR IMMEDIATE RELEASE

CALTRANS COMPLETES SIGNALIZATION PROJECT AT ROUTE 29/281 INTERSECTION

Eureka – Caltrans is pleased to announce the completion of the signalization project at the intersection of Route 29/281 (Kit's Corner) in Lake County. The traffic signal will be activated on Thursday, November 1. Caltrans reminds motorists to always drive cautiously and courteously, especially while motorists become accustomed to the new signal.

This operational project will improve the movement of traffic through the intersection of Route 29, Route 281 (Soda Bay Road), and Red Hills Road. A reduction in the number of collisions involving turning vehicles is anticipated.

The contractor, Steiny and Company, Incorporated, of Vallejo, began construction on August 30. The November 1 completion date is about one month ahead of schedule.
